# 1. INTRODUCTION

According to U.S. Code 23 Section 134, Metropolitan Planning Organizations are required to develop a Transportation Improvement Program in cooperation with the State and public transportation providers through a performance-driven, outcome-based approach to planning. The TIP should contain projects consistent with the Metropolitan Transportation Plan (MTP) and should reflect the investment priorities established in the current MTP. There should be opportunity for public participation in developing the MTIP including consultation with state and local agencies responsible for land use management, natural resources, environmental protection, conservation and historic preservation as appropriate.

Furthermore, as a Transportation Management Area (TMA), according to U.S. Code 23 Section 134, all federally funded projects within the DCHC MPO (excluding projects carried out on the National Highway System) shall be selected for implementation from the approved TIP by the MPO in consultation with the State and any public transportation operator. Projects on the National Highway System shall be selected for implementation from the TIP by the State in cooperation with the MPO.

North Carolina's Strategic Transportation Investments (STI) legislation, passed in 2013, establishes a formula and process by which transportation funding is distributed across the State and across transportation modes. The outcome of the STI process is the draft State

Transportation Improvement Program. The STI legislation is applied uniformly across the state. The STI legislation requires the identification and submittal of potential transportation projects by NCDOT and the MPO, the evaluation of projects according to a NCDOT-developed quantitative scoring methodology, and the allocation of ranking points among certain projects by NCDOT and the MPO.

The DCHC MPO's Methodology for Ranking TIP Project Requests is the process that the MPO will follow to develop the MPO's allocation of ranking points among projects for input to the STI process. The Methodology will also inform the MPO's development of the MTIP. The Methodology is designed to address the federal requirement that the TIP be consistent with the projects and investment priorities of the MTP while being compatible with the State's STI process.

## 2. ALLOCATION OF LOCAL INPUT POINTS

The full methodology is included in Chapter 2 of this MTIP. The tables on the following pages of this appendix present the allocation of local input points to transportation projects in the DCHC MPO that resulted from the implementation of the DCHC MPO's Methodology for Ranking TIP Project Requests.

T142199	Durham: NC 54 at Falconbridge 1144	5	Facility	Facilities-Bus Shelter	Regional Impact	This is for a sheltered stop at NC 54 and Falconbridge (Stop no. 1144). The sheltered stop includes a full size shelter with solar lighting, bench, trash can, wheelchair access and space, and an ADA landing pad. There is presently no shelter, bench, or any other type of amenities at this location. Shelters improve the appearance of bus stops for communities and improve the level of comfort and safety for riders.	\$20,000	\$2,000	\$2,000	\$16,000	16.78	12.84	39	5.91	16.15	0.33	16.78	12.84	0	0	12.02	12.88	0	Low state match requested does not justify the assignment of points.	0	Do not want Regional transit projects to compete with Division transit projects for limited Division funding.
